2022-01-11 12:53:36 UTC	Heather Adams	Greetings from the Canary Islands. Really looking forward to this talk.
2022-01-11 12:54:28 UTC	Markus Fürst	Hi Bernhard, the ppt is great!
2022-01-11 12:55:46 UTC	Camelia Oana	This session is not interpreted.
2022-01-11 12:55:51 UTC	Bernard Song	Thank you Markus. Great to see you!
2022-01-11 12:56:13 UTC	Francesco Saina	Hi everyone, looking forward to this session!
2022-01-11 12:58:18 UTC	Camelia Oana	We'll be on in 2 minutes:)
2022-01-11 12:58:24 UTC	Camille Ogawa	Greetings from Japan. Looking forward to this presentation!
2022-01-11 12:59:42 UTC	Guilherme Esteves	Hello from Rio de Janeiro!
2022-01-11 13:00:34 UTC	Tamara Kalantaryan	Hello from Moscow)
2022-01-11 13:00:40 UTC	Radica SCHENCK	Hello from Munich 😊
2022-01-11 13:01:04 UTC	Barbara Werderitsch	Hello from Madrid
2022-01-11 13:01:11 UTC	Charles Orlianges	Hello from Paris!
2022-01-11 13:01:29 UTC	Heike Thomas	Hi from Mexico City
2022-01-11 13:01:38 UTC	Antje Bormann	Hello from Paris, too.
2022-01-11 13:01:48 UTC	Inés Belaustegui - Trias	¡Hola desde Madrid area!
2022-01-11 13:01:50 UTC	Udo Jorg	Hello from Landau (usually London)!
2022-01-11 13:01:58 UTC	Marie-José Nzengou-Tayo	Greetings from Jamaica
2022-01-11 13:01:58 UTC	Agnieszka Tarczewska	Hello from Warsaw 😊
2022-01-11 13:02:04 UTC	Brenda Bibiloni-Kreisher	Saludos desde Puerto Rico
2022-01-11 13:02:05 UTC	Maarten Austmann	Hello from Düsseldorf!
2022-01-11 13:02:06 UTC	Isabelle Hoferlin	Hello from Belgium
2022-01-11 13:02:10 UTC	Daniela Facchinetti	Hello from Madrid
2022-01-11 13:02:10 UTC	Jan Rausch	Aloha from Manchester.
2022-01-11 13:02:24 UTC	Warda Chairi	hello from Belgium
2022-01-11 13:02:44 UTC	María Teresa Klementzos	Greetings from Alpharetta, GA
2022-01-11 13:02:52 UTC	Lilia Pino Blouin	Buongiorno! Lilia from New York
2022-01-11 13:02:53 UTC	Bernadette Blain	Hello from Montreal!
2022-01-11 13:03:08 UTC	Pia von Essen	Hello from Tampere, Finland!
2022-01-11 13:03:12 UTC	Alison Roy	Hi Bernadette!
2022-01-11 13:03:25 UTC	Shu Shen	Hello from Montreal too 😊
2022-01-11 13:03:26 UTC	Amélie Roy	Bonjour from Quebec, Canada!
2022-01-11 13:03:38 UTC	Natalia Fedorenkova	Hello from Moscow 😊
2022-01-11 13:04:03 UTC	Fabienne COUPE	Hi from Manchester, UK!
2022-01-11 13:04:23 UTC	Marie Marichal	Hi from Belgium 😊
2022-01-11 13:04:31 UTC	Jacqueline How	Hihi from Malaysia!
2022-01-11 13:04:34 UTC	Liza Gonzalez	Hello from Lima, Peru
2022-01-11 13:04:59 UTC	Laura Ferro	Greetings from Spain! 😊
2022-01-11 13:05:07 UTC	Serge Dalli	Hi from Ghana
2022-01-11 13:05:17 UTC	Eva De Camargo	Hi from Brussels
2022-01-11 13:05:28 UTC	Camelia Oana	Hello, everyone, and thank you for being here! Please ask your questions in this Session Chat and I'll make sure to ask them after the presentation.
2022-01-11 13:06:24 UTC	Li Tin CHU	Hi Bernard! greetings from Taiwan!
2022-01-11 13:06:32 UTC	Marcia de Camargo	Hello from Brazil!
2022-01-11 13:07:00 UTC	Monica Pires Rodrigues	Greetings from Brazil!
2022-01-11 13:07:20 UTC	Jing Guo	Ready Player One?
2022-01-11 13:07:21 UTC	Maarten Austmann	Jumanji?
2022-01-11 13:07:22 UTC	Nicoletta Comand	The matrix? Avatar?
2022-01-11 13:07:22 UTC	Liene Puzule	Squid Game?
2022-01-11 13:11:02 UTC	camila comas capo	sill puzzled with the concept of NFT, very hard to comprehend..
2022-01-11 13:12:47 UTC	Nicoletta Comand	Democracy? who runs the platform? who grants or revokes access?
2022-01-11 13:13:49 UTC	Caroline Lorriaux	more freedom of speech until the platforms decide it goes against their own rules
2022-01-11 13:14:13 UTC	Michael McCain	Question: who created the metaverse 'rules' listed early in the PPT?
2022-01-11 13:16:09 UTC	Heather Adams	Key question, Michael 👍
2022-01-11 13:22:12 UTC	Heather Adams	I am a long way from feeling comfortable being accompanied by an avatar...
2022-01-11 13:22:41 UTC	Antje Bormann	Here is a good explanation of the Metaverse rules: <a href="https://medium.com/meta-verses/the-seven-rules-of-the-metaverse-7d4e06fa864c">https://medium.com/meta-verses/the-seven-rules-of-the-metaverse-7d4e06fa864c</a>
2022-01-11 13:22:47 UTC	Suzanne van Gaalen	I would still need to rent office space, can't work from home all the time
2022-01-11 13:23:06 UTC	Alison Roy	will the avatar be paid the same rate as the physical interpreter?!
2022-01-11 13:23:13 UTC	Antje Bormann	Rule 3 seems to answer your question, Michael. Or not. 😊
2022-01-11 13:23:32 UTC	Enrique Chi	Those who have played World of Warcraft, or Halo, or similar games have already interacted with avatars
2022-01-11 13:23:47 UTC	Caroline Lorriaux	the avatar is just the digital image of your human colleague
2022-01-11 13:24:01 UTC	Maisie Greenwood	@Alison Roy I think the concept is not that an avatar is an alternative to an interpreter, it's a 3D visual representation of the existing actual human interpreter
2022-01-11 13:24:06 UTC	Radica SCHENCK	@Alison Roy should the avatar pay taxes? 😊
2022-01-11 13:24:28 UTC	Caroline Lorriaux	thanks Maisie, that's what i meant
2022-01-11 13:24:35 UTC	Magda Dziadosz	I envisage a growing market for luxury couture for avatars... 😊
2022-01-11 13:25:05 UTC	Antje Bormann	@Magda Dziadosz It's already happening.
2022-01-11 13:25:45 UTC	Maarten Austmann	@Magda Dziadosz For example: <a href="https://8biticon.com/nft-artwork">https://8biticon.com/nft-artwork</a>
2022-01-11 13:25:49 UTC	Magda Dziadosz	I know!!!
2022-01-11 13:25:54 UTC	Maisie Greenwood	@Magda Dziadosz yes they call them "wearables"..! <a href="https://www.reuters.com/business/finance/crypto-fashion-why-people-pay-real-money-virtual-clothes-2">https://www.reuters.com/business/finance/crypto-fashion-why-people-pay-real-money-virtual-clothes-2</a>
2022-01-11 13:26:19 UTC	Barbara Werderitsch	To project an avatar of a human interpreter, a lot of the personal data of this human interpreter needs to be "uploaded"? What about data privacy?
2022-01-11 13:26:21 UTC	Heather Adams	@Maisie Greenwood , so it reflects your real-life booth partner?
2022-01-11 13:26:23 UTC	Sheyla Fogarty	interesting topic.
2022-01-11 13:26:34 UTC	Heather Adams	So you can pick up their glances/facial expressions?

2022-01-11 13:26:53 UTC	Barbara Werderitsch	@Heather Adams Yes, it reflects your real-life booth partner
2022-01-11 13:27:01 UTC	Suzanne van Gaelen	cutting out the middle man
2022-01-11 13:27:34 UTC	Maaïke Villavicencio Fernar	thanks!
2022-01-11 13:27:35 UTC	Antje Bormann	Bravo
2022-01-11 13:27:38 UTC	Suzanne van Gaelen	thank you very much!
2022-01-11 13:27:41 UTC	Anouk Bello Burkart	I'm also wondering about data privacy, @Barbara Werderitsch
2022-01-11 13:27:41 UTC	Heather Adams	VERY interesting
2022-01-11 13:27:51 UTC	Liza Gonzalez	Super interesting
2022-01-11 13:27:59 UTC	Antje Bormann	Very interesting presentation, @Bernard Song
2022-01-11 13:28:02 UTC	Heather Adams	Me too, @Anouk Bello Burkart
2022-01-11 13:28:03 UTC	Agnieszka Tarczewska	Thank you very much, that's a very intriguing topic
2022-01-11 13:28:14 UTC	Inés Belaustegui - Trías	Excellent presentation. Powerful insights! Thank you so much
2022-01-11 13:28:18 UTC	Michael McCain	Will we become shadows of our virtual selves? How to deal with the resulting inter-self jealousy? 😞
2022-01-11 13:28:23 UTC	Frédérique Malbos	Thanks Bernard
2022-01-11 13:28:33 UTC	Maisie Greenwood	@Bernard Song great presentation, very interesting thanks! Can I ask what sort of pricing structure you've come up with for your GreenTerp add-on, and how
2022-01-11 13:28:33 UTC	Lilia Pino Blouin	Awesome, thank you Bernard
2022-01-11 13:28:54 UTC	Li Tin CHU	Excellent presentation Bernard!
2022-01-11 13:29:02 UTC	Agnieszka Sababady	Hello, more deepfakes?....
2022-01-11 13:29:04 UTC	Michael McCain	Thank you Bernard. Thought provoking.
2022-01-11 13:29:14 UTC	Heike Thomas	Thanks for the great explanation. it is still hard to wrap my head around this, but you made it easy
2022-01-11 13:29:35 UTC	Serge Dalli	Will one need a certain type of internet connection, like 5G, to fully benefit/enjoy the Metaverse?
2022-01-11 13:29:57 UTC	Danae Parmaki	Hard but a lot of food for thought... Thank you!
2022-01-11 13:29:58 UTC	Anouk Bello Burkart	Great presentation and thank you, Dr. Terp! (And hello there @Heather Adams 😊)
2022-01-11 13:30:18 UTC	Eva De Camargo	what equipment do we need to get in order to be included into this new way of interpreting? what kind of training?
2022-01-11 13:30:38 UTC	camila comas capo	when is this going to become a reality for us, interpreters, in our daily working life? when is the Metaverse going to be here to stay? Just to be ready for it!
2022-01-11 13:30:40 UTC	Silvie Marinovová	When will it be reality?
2022-01-11 13:31:01 UTC	Natalia Fedorenkova	A very engaging vision of the future!
2022-01-11 13:31:06 UTC	Anouk Bello Burkart	We will definitely need some high-tech "gaming" hardware!
2022-01-11 13:31:06 UTC	Udo Jorg	Your HSI vision is very interesting, Bernard, but wouldn't it be much more complicated to set up and manage such a mixed terp environment than a more hom
2022-01-11 13:31:11 UTC	Agnieszka Sababady	And to think that at some point we thought interpreting on ZOOM was challenging... 😞
2022-01-11 13:31:12 UTC	Inés Belaustegui - Trías	Excellent presentation, @Bernard Song. Powerful insights! Thank you so much
2022-01-11 13:31:14 UTC	Maisie Greenwood	A comment rather than a question: I can't help wondering, if we did use a headset to see the whole conference room in VR, and see our colleague as an avat
2022-01-11 13:31:42 UTC	Alicia R. Chiesa-Repetto Fe	Very new and engaging.
2022-01-11 13:31:51 UTC	Barbara Werderitsch	No worries;)
2022-01-11 13:31:52 UTC	Radica SCHENCK	@Bernard Song Thank you for the excellent presentation. To be able to work as an interpreter in the Metaverse, would we need a lot of additional equipment
2022-01-11 13:32:53 UTC	Radica SCHENCK	So the interpreters are not "invisible" anymore?
2022-01-11 13:33:05 UTC	Caroline Lorriaux	the new RSI mode is so challenging in terms of how many things we need to manage, a one hour RSI meeting is as tiring as a traditional 3h meeting
2022-01-11 13:33:51 UTC	Danae Parmaki	Definitely realised this and why chose it really!
2022-01-11 13:33:52 UTC	Suzanne van Gaelen	excellent observation about the future of our profession!
2022-01-11 13:34:25 UTC	Tiago Cotogni	Thank you for the insightful presentation. I'd like to ask an age old question: is there a real chance that these tools developed to aid us, I think of the HSI syst
2022-01-11 13:34:28 UTC	Lilia Pino Blouin	"We embarked on a journey when we decided to become interpreters" - As we say in Italian: "holy words", @Bernard Song
2022-01-11 13:34:52 UTC	Agnieszka Sababady	How can I convince a corporate client to use GT on MSTeams? The client does not allow ANY plug-ins on their corporate computers.... ZOOM is not an optio
2022-01-11 13:34:59 UTC	Guilherme Esteves	Thank you for the very interesting presentation, Bernard. As someone with a background in IT, this topic interests me immensely. I will follow the developmen
2022-01-11 13:35:21 UTC	Inés Belaustegui - Trías	Never-ending, non-stop learners, is a description I can relate to as interpreter. 😊 Exciting!
2022-01-11 13:36:15 UTC	Fabienne COUPE	What extra equipment would we need (if any - this question hasn't been answered yet), and how much does Metaverse cost?
2022-01-11 13:36:33 UTC	Markus Fürst	Will there be virtual Marketplaces in the Metaverse? Would it make sense to create this kind virtual Interpreter Broker Company that will provide and promote
2022-01-11 13:36:40 UTC	Caroline Lorriaux	we need to embrace the change because it WILL happen whether we like it or not. Thank you Bernard
2022-01-11 13:36:45 UTC	Eva De Camargo	yes @Fabienne Coupe I am also interested in the equipment and the training we would need
2022-01-11 13:37:22 UTC	Agnieszka Sababady	@Inés Belaustegui - Trías it stops being so exciting if clients demand all that equipment / advanced solutions but offer per - second remuneration. 😞
2022-01-11 13:38:13 UTC	Amélie Roy	How can the RSI-savvy interpreter best prepare for the future, in 2022?
2022-01-11 13:38:39 UTC	Anouk Bello Burkart	@Maisie Greenwood In addition, metaverse headsets are usually noise isolating... note-taking might be solved with AI, I just hope there won't be any time lag
2022-01-11 13:38:39 UTC	Lilia Pino Blouin	I recommend Jonathan Downie's excellent book "Interpreters vs Machines" on this question (will we be replaced? ). Reading it was a real mind-switch for me
2022-01-11 13:38:41 UTC	Charles Orlianges	Don't you anticipate that Metaverse might bring us to get organized very differently in the future ? For instance : worldwide permanently accessible SI teams
2022-01-11 13:39:00 UTC	Maisie Greenwood	repeating my question from above as it might have got lost: Can I ask what sort of pricing structure you've come up with for your GreenTerp add-on, and how
2022-01-11 13:39:24 UTC	Danae Parmaki	@Lilia Pino Blouin Jonathan is a master on this, good resource!
2022-01-11 13:39:58 UTC	Serge Dalli	What do you refer to as lower/basic interpretation needs?
2022-01-11 13:40:01 UTC	Antje Bormann	I for one would be very happy for AI to take over the factory tours attached to some EWC meetings. 😊
2022-01-11 13:40:50 UTC	Sophy Frances	Dear Mr Song (by the way, I love your name!), thank you very much for being so clear! But what if we envision an all English speaking "Brave new world" wh
2022-01-11 13:41:04 UTC	Tiago Cotogni	Thank you for your across the board reply! Much to think about...
2022-01-11 13:41:30 UTC	Agnieszka Tarczewska	@Antje Bormann Or interpreting at slaughterhouses and other nice places of this kind 😞
2022-01-11 13:41:31 UTC	elisabetta landolo	Thank you! Your explanation is really clear and interesting although some of the implications quite scary! I agree with you, we keep learning: language, culture
2022-01-11 13:42:47 UTC	Radica SCHENCK	Thank you for the positive note, Bernard. In "The Every" Delaney and Wes are using simply wrong grammar in order to obfuscate their utterances for AI not to
2022-01-11 13:43:13 UTC	Serge Dalli	To a large extent, this presentation points to one thing: our world is getting less and less of human interaction.
2022-01-11 13:43:37 UTC	Caroline Lorriaux	the thing is that on top of being interpreters, we must become IT specialists...
2022-01-11 13:43:41 UTC	Alison Roy	Human interaction will be the luxury option
2022-01-11 13:44:31 UTC	Silvie Marinovová	How would a client be able to listen to the floor and the interpretation at the same time without being trained and not getting exhausted?
2022-01-11 13:44:46 UTC	Sophy Frances	Sounds we're turning into robots...
2022-01-11 13:45:06 UTC	Antje Bormann	@Agnieszka Tarczewska Indeed, although only because of the external circumstances associated with interpreting guided factory tours, like ambient noise, c
2022-01-11 13:45:21 UTC	Barbara Werderitsch	@elisabetta landolo I agree. Thank you for this excellent presentation and insights, @Bernard Song . Thrilling, but also scary: should we not try to get back to
2022-01-11 13:45:51 UTC	Sim Smiley	It sounds like the first category that might loose out are the traditional booth providers
2022-01-11 13:45:55 UTC	Sophy Frances	ANJE: "Socialist Production in an abattoir"??!
2022-01-11 13:46:07 UTC	Nora Ledea	@elisabetta landolo What you said!

2022-01-11 13:46:16 UTC	Inés Belaustegui - Triás	Why being face to face is synonymous with human interaction, more than being in touch over the Internet, may I wonder. It is as if we said that writing letters
2022-01-11 13:46:26 UTC	Caroline Lorriaux	soon, all interpreters will experience hearing deficiencies with 100% remote jobs
2022-01-11 13:46:41 UTC	Serge Dalli	@Barbara Werderitsch that would be lovely. However, it seems we're getting farther away from each other with all this technology.
2022-01-11 13:46:42 UTC	Adriana Zúñiga Hernández	@Charles Orlianges I'd be concerned about poor quality interpretation with this "ready to join any booth shift at any given time" as the need to prepare for an
2022-01-11 13:46:51 UTC	Agnieszka Sababady	Thank you for this explanation. I will try your argumentation with a few corporate clients, but they have refused any add-ons or plug - ins so far.
2022-01-11 13:46:53 UTC	Antje Bormann	@Sophy Frances That was not my idea, in the GDR that was on the syllabus. 🙄
2022-01-11 13:47:05 UTC	Isabelle Hoferlin	It seems that we might soon be interpreting next to each other's holograms, colleagues ...
2022-01-11 13:47:21 UTC	Sophy Frances	😬
2022-01-11 13:48:01 UTC	Caroline Lorriaux	even without compression, the audio s not the same as non digital voices
2022-01-11 13:48:02 UTC	Barbara Werderitsch	"no operator cost, no audio/video compression, no security breaches, no re-streaming" DOES sound thrilling;-)
2022-01-11 13:48:06 UTC	Anouk Bello Burkart	I wonder how the avatar etiquette will be like...
2022-01-11 13:48:40 UTC	Monica Pires Rodrigues	Could you please talk a little bit about the GT console? I am curious about it and would like to know if it only works with GT.
2022-01-11 13:48:41 UTC	Antje Bormann	@Sophy Frances Not always in abattoirs. It was to introduce pupils to local companies.
2022-01-11 13:49:30 UTC	Alison Roy	a hologram may be better than a whatsapp back channel
2022-01-11 13:49:33 UTC	Monica Pires Rodrigues	(I mean the physical console)
2022-01-11 13:50:16 UTC	Gio Lester	i look forward to a hybrid yer.
2022-01-11 13:50:21 UTC	Heather Adams	Granted, @Alison Roy, but does the avatar note down numbers and proper names??
2022-01-11 13:50:33 UTC	Frédérique Malbos	Great!!
2022-01-11 13:50:35 UTC	Lilia Pino Blouin	@Alison Roy -that was going to my comment - right now I talk to a phone screen, so it's definitely a step up!
2022-01-11 13:50:56 UTC	Gio Lester	I use Whereby and it is great.
2022-01-11 13:51:04 UTC	Gio Lester	i can see and hear my colleague.
2022-01-11 13:51:13 UTC	Lilia Pino Blouin	@Heather Adams - you have AI to note down anything you need better than any partner would (better than me as a partner for sure)
2022-01-11 13:51:23 UTC	Radica SCHENCK	@Heather Adams we will go to a concert or dinner after the conference...with the avatar
2022-01-11 13:51:28 UTC	Alicia R. Chiesa-Repetto Fe	Thank you for a most thought-provoking session. Judging from what has been shared in this meeting, the sci-fi sensation of the future of interpreting is certa
2022-01-11 13:51:43 UTC	Enrique Chi	The avatar represents a real person. That person may write notes and whisper suggestions, the avatar will reflect those actions... just like in a full immersion
2022-01-11 13:51:55 UTC	Antje Bormann	Sounds interesting!
2022-01-11 13:52:09 UTC	Gio Lester	GT or GD console?
2022-01-11 13:52:09 UTC	Inés Belaustegui - Triás	Why being face to face is synonymous with human interaction, more than being in touch over the Internet, may I wonder. It is as if we said that writing letters
2022-01-11 13:52:15 UTC	Camelia Oana	GT - Green Terp
2022-01-11 13:52:26 UTC	Gio Lester	Ah! Thanks.
2022-01-11 13:52:30 UTC	Inés Belaustegui - Triás	GT [Green Terp]
2022-01-11 13:52:39 UTC	Antje Bormann	Last year I heard of a colleague who reprogrammed the KUDO console to work with Zoom. I still haven't tried it but I do like working with a physical console
2022-01-11 13:52:41 UTC	Barbara Werderitsch	@Radica SCHENCK @Heather Adams : please, let at least the concert (and the food before;) be real... sweaty and all, I do not care after so much isolation.
2022-01-11 13:52:53 UTC	Alison Roy	what about protection against acoustic shock- a compressor limiter?
2022-01-11 13:53:02 UTC	elisabetta landolo	GT was really easy to use. Thanks
2022-01-11 13:53:17 UTC	Liza Gonzalez	Awesome!
2022-01-11 13:53:24 UTC	Heather Adams	Hmmm- a whispering/note-taking avatar ... not sure, myself. Definitely on for the concert!!!
2022-01-11 13:54:02 UTC	Alicia R. Chiesa-Repetto Fe	Challenging and interesting, for sure!
2022-01-11 13:55:21 UTC	Amélie Roy	Toxic sound is a much greater concern of mine than acoustic shock.
2022-01-11 13:55:30 UTC	Isabelle Hoferlin	All Sennheisers? Or some specific models?
2022-01-11 13:55:33 UTC	Mariette Mittelholzer	Thank you for the presentation and for giving us an opportunity to experience GT as a client would!
